M7 Pacific Dusty is a son of the 100 inch Pacific Cowboy 40 bull, which brings in Cowboy Up Chex and PC Pacific Mermaid. His dam is the over 94 inch Rio Dustette, which brings in JP Rio Grande and BW Dustette. We leased this bull for a season and were so happy with him that when the opportunity presented itself we purchased him. He already has some really nice looking progeny at Milestone Cattle company and we can't wait to see his progeny start
