"Bodie" is an exciting young bull from the heart of the Jimmy Jones/Horseshoe J breeding program. He currently projects to over 100" TTT and has one of the biggest frames on any adolescent bull we have ever seen. Combine that with a very mild disposition, and you have the makings of a legendary herd sire! Bodie's dam, Horseshoe J Latitude is from a long line of excellent mothers and his massive sire, Power Wagon, goes back
