Pride is an outstanding specimen that has everything you would ever want in a Herd Sire. He has conformation, horn and is a gentle giant. His calves are mid 50's -60" TTT at 24 months and are twisting out well. His dam has also produced two Top Caliber daughters that are in their 90's at 5. His son CHR ALL American measured 88" TTT at less than 4 years old.

**Total Horn:** 97.8125 on 10/04/2018
