

## SW HARLEY WORKING

**Date of Birth:** 01/11/2014  
**Registration 1:** 271201  
**Breeder:** Mosser, Rex  
**Owner:** Valley View Farms/Brigalow Longhorns

Courtesy of Southwind Longhorns

This is the famous original Working Woman's last natural heifer and she may have saved her best work for last. Harley was calved by Working Woman at the age of 17! This young cow is well built, tall, gentle and has explosive horn growth. Harley has the early horn growth, direction, pedigree and will definitely be a cow in the mid 90's. This young cow not only has the horn but she produces horn. Her first calf heifer measured 60" at 24 months old.

**TTT:** 86.0000 on 11/25/2019
